Air Cargo Services

Premium Air Cargo

Packaging of shipping materials is very important for all categories of freight transportation.

Different types of packaging boxes, bags and wrappers are used for tight packing of cargos.

Our packaging agents pack the sensitive and heavy duty products with utmost care so that these products are not damaged during transportation.

We have equipped our infrastructure with latest communication gadgets that provide us latest status of cargo delivery.

Air Cargo Services

We offer a comprehensive range of Air Cargo Services.

An air cargo service means express delivery of shipping materials via air routes.

Our team comprises very experienced and trained professionals, who execute all cargo handling services within the set time periods.

Air cargo services are comparatively costlier than other forms of transport services.

Time taken in the air freight services is significantly lower than other forms of goods transportation services.

Train Cargo Services

Offered by us are highly credible and reliable Train Cargo Services. We are engaged in providing perfect solutions to the people, who want to transport their vehicles from one place to another many other thinks.

Our team maintains excellent safety concerns of the car in order to avoid any kind of damage and mishaps.

The entire loading and unloading is done under trained professionals. Important features of the service rendered by us are:

- Delivery within the stipulated time frame
- Scratch free delivery
- Cost-effective
- Prompt feedback from the clients

Express Delivery Services

We provide Express Cargo Service all over India, for transportation of part load temperature sensitive product through refrigerated vans on interested basis with committed ON TIME delivery.

This service covers pick up from customers and door delivered to customers on selected days with committed transit time.

This service has been appreciated by the customers as it has helped them to reduce their transportation cost by changing the mode of transport from air to surface.

- Careful transportation
- Experienced professionals
- Cost-effective

Warehouse Services

Backed with years of industry experience, we offer an exclusive range of Warehouse Services like Cargo Warehousing Services to ensure completely safe transit and delivery of domestic as well as commercial goods.

Working with modern security systems and latest technology, we also offer facilities to preserve edible products, delicate equipment and fragile heavy metals.

Designed to satisfy clients' specific requirements, these services are very reliable and economical.
